Several questions and concerns were raised about the Ambulance System with EMS Chief Mike Roye answering those questions. President Johnson answered questions concerning the sales tax issues with emphasis on substantial property tax reductions for all property owners across the board. Senator Dixon concurred with the problem but cautioned members about the process of passing such legislation considering the current North Carolina fiscal condition. President Johnson stated that the PSTF emphasized to the BOC the importance of assisting our low wealth fire departments and offered several recommendations on the process.

Commissioner Melvin will keep us informed and will push for an answer.
